

VOLUME 111 NUMBER 48

THE WORLD OVER

80 CENT BONDS WORTH \$11,262.50

FAVORABLE TRADE WITH JAPAN

"BLUE SHIRT" LEADERS WANTED

VANCOUVER—Said to have been picked up at a Canadian Pacific Railway "blue shirt" sale for 60 cents, \$11,262 in civic bonds of Indian were tied up recently by an interim injunction ordered by Mr. Justice D. A. McDonald. The injunction, restraining three Vancouver men from disposing of the bonds until December 25, was granted on the claim of the Farmers Bank of Frankfort, Indiana, that the bonds had been stolen from them in 1926.

OTTAWA—Canada enjoyed a favorable balance of trade with Japan to the extent of \$3,754,438 yen for the nine months of 1932 ended September 30, Assistant Trade Commissioner A. K. Dault reports to the Department of Trade and Commerce. The yen value of goods at market quotations is roughly 31 cents.

The total trade between the two countries for the nine months ended September 30 was valued at \$9,322,976 yen compared with \$8,650,215 yen for the corresponding period of 1931. Canada's exports to Japan for the period under review were valued at \$2,383,752 yen, an increase of 4.97 per cent compared with the 1931 period. Imports from Japan for the period just ended showed a decrease of 1,852,732 yen against the nine months of 1931. Canadian wheat worth 1,247,461 yen represented an increase; lumber valued at 5,355,895 yen, a slight decrease; 42,068 tons of paper pulp, lead, newsprint, copper, asbestos, rubber gloves, scrap iron, needles and aluminum scrap were principal exports to Japan in the period mentioned.

DUBLIN—A warrant, it was definitely learned, has been issued for the arrest of General John O'Duffy, organizer of the outlawed "Blue Shirt" movement and co-leader of the United Ireland party which opposes the government of President Eamon de Valera.

Although the general has frequently held meetings in defiance of the auth-

ALBINO HUNGARIAN PARTRIDGE

SHOSH RIVER—A flock amongst a bunch of Hungarian partridges has been noticed on the farm of Bert Widenhamer, Longview. The little Hun is pure white with red markings on his back. It flies with a covey of 19 to 15 partridge that make their home in the trees near the Widenhamer home. It was first noticed about two months ago after the first season's snow. No one has been able to account for this little curiosity, but it is evidently quite at home amongst its darker relatives.

Checking Up Motor Offenders

A strong appeal to the motoring public of Alberta to co-operate in bringing about a stricter observance of highway traffic regulations, coupled with a clear warning to all motorists that a close check-up on infractions of the motor vehicles act and regulations is now being made by the police throughout the province, has been issued by the Government of Alberta. During a recent check-up of one of the main highways by members of the R.C.M.P., a flagrant disregard of the provisions of the act was revealed. As a consequence, a special police circular, issued by direction of Col. H. M. Newton, officer commanding "B" division, and concurred in by the Provincial Government, has gone out to all detachments in the division calling for as strict a supervision of traffic as possible, and a close check-up on infractions of the law. As a result of this check-up, 299 warnings to motorists were issued during the month of November by the police, and there were 35 prosecutions.

Officer, he failed to appear as scheduled at Cardonhough. One of the speakers said General O'Duffy is expecting arrest, but has certain things to do first. Police broke up forbidden "Blue Shirt" meeting and arrested two Irish leaders and sympathizers in the crowd interested and permitted their escape.

Two hundred youths wearing the forbidden blue girls under their coats re-assembled at the other end of town when police broke up the meeting at the scheduled place. The officers again arrived on the scene but the crowd closed in and permitted them to escape the law.

The above incidents seem to prove that the "Blue Shirts" are many-faceted, and that President de Valera's policies are not popular with many of the citizens of Ireland.

Finishing Alberta Poultry on the Farm Profitable

Putting the finishing touches on the product before offering it for sale, yields the greatest proportionate returns of any labor undertaken on the farm. In no case is this more pronounced than with the feeding and finishing of poultry for market.

With this in view, the Poultry Division of the Alberta Department of Agriculture is undertaking a campaign in certain sections of the Province to finish Alberta poultry on the farm by the comparatively simple process of crate feeding or pen feeding for three weeks, using home grown feeds, and carefully grouping and selecting the birds to be fed so that the weaklings are not outdone by the stronger birds in the flock. A great proportion of the poultry now going to market and being placed in Grade 2 or 3 can be put in such condition as to qualify for the top grade and the top price. Market poultry, whether sold alive or dressed should always be fattened and prepared for market, and for this purpose a system of crate feeding or pen feeding is essential. Not only does crate feeding increase the weight and improve the condition of the bird, but it also greatly improves the quality of the flesh by softening the muscles which results in juicier, tender meat when prepared for the dinner table, as compared with tough, stringy, unpalatable poultry meat such as one is sure to get if unfinished poultry is roasted in the usual manner.

The feed is composed of equal parts of wheat, oats and barley. Fresh ground from which the coarser hulls have been removed. To this is added 10 per cent of feed scrap. The mash is fed in a moist condition, each feed being mixed one feed ahead with milk or water. The birds are only given an amount as they will clean up in 35 or 40 minutes, after which the troughs are removed and emptied and hung up on the wall. The psychological effect of having the troughs hung back and filled with fresh feed at the regular intervals two or three times a day encourages the birds to eat more, and results in less, if any, of the birds going off their feed.

Killing and Dressing
The final stage in properly preparing poultry for market—killing and dressing—is of great importance. A little carelessness or a little indifference to proper bleeding and plucking, which results in torn flesh or discoloration, will lower the grade of the bird to one or two grades. Birds that have been fattened as suggested above are very tender and bruise and tear easily, and must be handled out of the feeding crates and during the whole process of killing, dressing, cooling and packing, in a very careful manner and in order to avoid blemishes. The public pays a premium for appearance and the better the appearance that can be put on poultry before it is sent to market, the greater will be the price.

So far as possible wherever a district desire to have a killing and dressing demonstration provided by the Poultry Branch of the Department of Agriculture, this will be done free of charge upon application to the Department. At such demonstrations anyone can learn the art of proper bleeding and plucking a bird so that the feathers can be easily removed. Meetings might be arranged in public school houses, community halls, or at places convenient to the whole community.

Teacher—What are the exports of Cuba?
Johnnie—Don't know.
Teacher—Where do you get your sugar?
Johnnie—From the neighbors.

LADIES MAY FORM CURLING CLUB

A meeting has been called for Friday night, December 16th at 8 p.m. in the Municipal hall for the purpose of forming a ladies curling club in Carleton. All ladies interested are asked to attend.

COLD WEATHER GIVES IMPETUS TO LOCAL MINES

The past week has been of zero weather with temperatures going as low as 12 below zero and as a result the coal industry will benefit. On account of the mild November weather, the local coal mines were only working part time and coal orders were scarce, but the cold weather has reversed the situation and Carleton mines are working fairly good these days.

ALBERTA NEWS

Big Baby Beef Club

One of the most active baby beef clubs in Alberta is that at Lethbridge. This year some 27 youthful cattlemen have entered the feeding contest, which opened on November 1. This ensures a large showing of baby beef for next year's exhibition.

New Gas Well

Already recognized as one of the largest wells in Turner Valley, Sterling Royalties No. 1 has a yet larger flow of 35,000,000 cubic feet daily, it was announced. The well blew in with force last Tuesday afternoon and the roar of the gas coming from the hole at an estimated pressure of 2000 pounds to the square inch could be heard for more than a mile from the location.

Second Payment for Beets

The sugar beet growers of southern Alberta have had a second cash payment on account of beet deliveries made to the sugar factory at Raymond. This payment totaled \$123,000 and it is expected that the entire payment to the growers for the current season will reach the grand total of more than \$600,000 before Christmas. The factory is slicing beets at the rate of 1200 tons daily.

Relief Operations.

Over 1000 carloads of feed for livestock have been moved this season under the free freight policy into the dried-out areas of the province. Beginning December 1, several new areas in the southern part of the province were added to the territory within which free freight privileges will apply. Among these will be the Coronation-Gladys district on the Coronation line of the C.P.R.; Barons to Alderdale on the Lethbridge line and Medicine Hat to Alderdale. Settlers on the land under the relief settlement plan in Alberta now stand at 248 families, and the scheme has been discontinued for the season. The program includes 51 families settled in 1932 and covers the entire operation of the scheme in the province.

School Fairs

School fairs in the rural districts although handicapped by present conditions continue to be a very important factor in rural life of the province. During the last year over 600 rural schools have participated in school fairs, according to a report just compiled. Some 60,000 entries of all kinds were shown at the 15 fairs held during the season. Many of the fairs were fully as successful as in former years. During the annual scholarship contest for winners in school fair work, held this year at Olds school of agriculture, nearly 300 boys and girls were winners, and benefitted from the lectures given.

He (almond ship) "Your boy friend certainly sent you enough candy!" she—"Yes, he wanted me to have a bon bon voyage."

CONTRASTS

One of life's most ironic travesties the other night in New York revealed, but slighter new attention. A man, worn out with the struggle against poverty, spent his last nickel in the Automat restaurant for a roll. He sprinkled a deadly poison on the roll, ate part of it, then staggered to the washroom and dropped dead. A miserly woman at the same table ordered the portion off the roll the suicide left and ate it. She too collapsed and died on the way to the hospital. An investigation showed she was comparatively rich with nearly \$60,000 in various banks. The man died in a battle against poverty, the woman in a greedy attempt to save a nickel to add to her store—Boston Post.

Snicklefritz

Fair Customer—Has this car all the modern improvements?
Salesman—Everything, madam, but a beautiful nose.

"Do you mean to say your husband beat you when you arrived home after midnight?"
"Yes—but only by 20 minutes."

"Patience and perseverance will accomplish all things," said a passenger in a railway compartment.

"Nonsense, sir!" said a fellow passenger. "Will patience and perseverance enable you to carry water in a slop?"

"Certainly. Simply by waiting patiently for the water to freeze."

The keeper discovered a stranger I shine in a private strait of water and ordered him to draw his back. The stranger obeyed and it was seen that his back was baited with a piece of carrot.

The keeper burst into laughter and said: "If that's the bait you use, you can't do any harm. Get on with it." Several hours later the two met outside the private grounds. "Great Beasts!" exclaimed the keeper, looking at the looker of trout. "You didn't catch all those trout with a piece of carrot, did you?"

"No," replied the sportsman, "I caught you with that!"

Unique Banquet Held At Royal Winter Fair When Menu Featured All Canadian Products

Several hundred farmers from all parts of Canada were present at a banquet during the Royal Winter Fair in Toronto, November 22 to 30 at which every item on the menu was the product of, or nearly all of them, farm products.

There were oysters from Prince Edward Island, and the shell fish from there were incomparable. Alberta provided the sugar, produced from sugar beets grown at Raymond near Lethbridge. British Columbia sent oysters and fruit, and Ontario also provided fruit and other edibles. The oysters were made from four from Saskatchewan. The turkeys came from Manitoba and cranberries for the accompanying sauce were New Brunswick.

Neither ice nor coffee was served at this banquet, the beverages being limited to apple cider from Nova Scotia, grape juice from Ontario, and Canadian-made ginger ale. The callowies came from Quebec, potatoes from New Brunswick, and the pumpkins from Ontario. The Canadian Government Central Experimental Farm, Ottawa, supplied the turkey and Ontario and British Columbia furnished the nuts.

Although Canada is a great exporter of food products, and produces large quantities of foodstuffs, particularly seasonable fruits and vegetables, much of which comes from the United States.

This All-Canadian banquet a franchise of the Royal Winter Fair, and just a little demonstration that Canada can feed itself if necessary and suffer little, if any from lack of variety or quality. —Canada Week by Week.

Chemists' New Discovery

Cod Liver Oil Can Now Be Taken In Palatable Form

As a result of experiments made by Canadian chemists a method has been found whereby the beneficial properties of cod liver oil can be taken in a pleasantly palatable form. By the new process the fresh cod livers can be mixed with cocoa in such a way that all the health-promoting properties of the livers are retained without any oiliness or objectionable taste or odor remaining, and the mixture can be successfully used in the manufacture of a chocolate-coated confection.

Manufacture of the candy has already been undertaken and each small bar contains the equivalent of a tablespoonful of cod liver oil, persons who have eaten it declare that it is impossible to notice any taste of the oil. The liver-cocoa mixture has also been used in making ice cream and milk and chocolate. On the other hand, while the mixture carries no taste or smell of oil, it is produced by a "cold process" and is unchanged in quality. It contains maximum quantity of Vitamin "A," the growth-inhibitor, and Vitamin "D," the anti-rickets preventive, as well as the substances for getting through and the correction of pernicious anemia.

Among the fish caught in the sea, fisher's of Canada cod is one of the most valuable. The annual catch is about 15,000,000 pounds, practically all of which is caught in the Atlantic.

Weekly Cattle Shipments

In addition to direct shipments from Saint John to Great Britain of approximately 1,000 head of cattle a week throughout the winter, it is probable an additional 1,000 a week will be fed and watered at St. John for trans-shipment to London, England, Thomas Noble, member of Saint John harbor commission, announced.

Will Distribute Seed Oats

Plans are being carried out to provide about 2,500,000 bushels of oats for distribution in the grass-land and drought-affected areas of Saskatchewan. Although some seed wheat also will be required, the amount will be small as compared with the 1932 distribution of some 4,500,000 bushels.

Fall Rye Average Less

Fall rye acreage in Saskatchewan in 1932 shows quite a decrease from the figures for 1931. In 1932 there were 204,000 acres of this grain seeded in Saskatchewan, and this fall the acreage is given as 240,000. The total decrease in Canada, 50,300 acres. Saskatchewan shows the greatest decrease of all provinces.

Canada comprises 27 per cent. of the total area of the British Empire.

Swiss Watch Trade Menaced

Japanese Selling Timepieces In Geneva By The Pound
"Why buy one watch? Buy a pound of watches."

This has become the slogan of Japanese dumpers on the Swiss watch market. Watches "made in Japan" are selling in the Jura district of Geneva for 18 Swiss francs a pound—and no local manufacturer can compete with them. That delicate timepieces should be sold by the weight like common nails or tacks has stunned the big watchman of Switzerland.

An urgent emergency measure based on eighteenth century economic reasoning has been hurriedly put into force to protect the age-old Swiss trade.

All watch machinery exported from the country is taxed a special export duty of 9,000 Swiss francs, according to the measure.

This tax is based on the theory that the only way to beat competition is to prevent it. "Keep the watch machinery in the country and there will be no foreign competition," says the Swiss Government.

But the leading manufacturers are not satisfied and are asking for stronger protective measures. They demand a quota system be applied to all foreign watches.

To Determine Whether Land or Water Lies Under Ice Cap
Daily directions from Tulsa, Okla., capital of the United States, will be sent by short wave radio to the Byrd Antarctic exploration party as it tests to determine thickness of ice that hinders the Antarctic continent. The testing will be done with seismographic equipment that records the puls and deflection of sound waves beneath the surface of the ice when explosives are discharged. It will determine whether water or solid soil is beneath the ice.

The equipment, used in explorations for oil in the United States, was developed by a Tulsa firm, and it is this firm that will give the radio directions. The station is being assembled now and will be ready for use January 1, 1934, when the Byrd party is expected to start actual work in the Antarctic. Daily reports of progress will be received, all the messages being in code.

The equipment was developed by the Stinson Service Corp.

Present For His Jailor
Charles Blanks, convicted southern Colorado gangster, spent 26 days of his sentence in the Pueblo County Jail and used eight large boxes of matches in constructing a miniature house, which he presented to a jailer on his release. The tiny bungalow, complete in every detail, is electrically lighted, has tin roof and eaves and is constructed entirely of matches except for bits of drapery, glass and cardboard.

Paris has put all kinds of interest in today's model fashions two of the new ideas to give shoulder bigger make it with sleeves with points striking an upward line at the shoulders and with very capitate as in the small diagram.

Y-axis of the bodice wrapped around. It gives it tailored chic and a decidedly slanting line.

Carry it out in wool jersey, tweed, faille crepe silk, silk and synthetic mixtures, etc.

You can make it in about two hours. Style No. 491 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30 inches.

Size 16 requires 2 1/2 yards 34-inch material. Price of pattern 20 cents in stamps (a single coin is preferred). Wrap coin carefully.

ANOTHER STEP IN AVIATION

A new type of autogiro without wings or rudder, invented by Senor De La Ciera, makes its first appearance at Hainworth Aerodrome, Middlesex, England. The remarkable feature of the machine is that the pilot has perfect control at the lowest speeds. Senor De La Ciera's latest discovery is that alleron, elevators and rudder are unnecessary, and his model is amazingly simple to control. The pilot has merely to tilt the rotors in the requisite direction by moving a single lever, and the machine will move upwards, downwards, and sideways as he wishes. The top speed of the machine is equal to that of the equivalent aeroplane. Senor De La Ciera, at the controls of the new "Direct Control" Autogiro, is landing his machine tail-first.

Byrd Expedition Uses Oil-Finding Machine

Not Attractive To Tourists
Good news for tourists is the announcement that the primordial gloom of European railway stations is to be dispelled by a brightening-up process.

The cold, dank atmosphere of stations in Britain, the railways realize, probably has done more than anything else next to bad hotels—to keep foreign visitors from returning. By reducing their fairs recently, they also found that Englishmen were ready to travel by rail instead of motor cars if conditions could be made slightly more attractive.

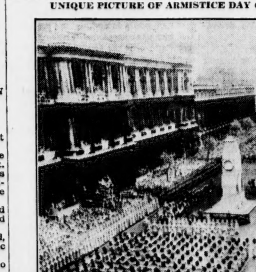

Meanwhile, water taxis have been appearing on the Thames to provide the commuter a novel and pleasant way of going to the office. Until now the Thames alone has escaped the traffic congestion common to London's narrow streets.

China Forbids Torture

Cannot Be Used To Get Confessions From Accused Criminals
Use of torture to extract testimony or confessions from persons accused of crime is heretofore to be forbidden in China, according to a decision reached at Nanking, by the Central Executive and used eight large boxes of matches in constructing a miniature house, which he presented to a jailer on his release. The tiny bungalow, complete in every detail, is electrically lighted, has tin roof and eaves and is constructed entirely of matches except for bits of drapery, glass and cardboard.

Motor riding in Germany is increasing.

UNIQUE PICTURE OF ARMISTICE DAY CEREMONIES

This picture, taken by the infra-red process, shows a general view of the immense two million soldiers at the Cenotaph in Whitehall, London, England. The red uniforms of the guards become almost white, and the trees along Whitehall change to perfect specimens of orange blossom as the infra-red pierces the misty morning to reproduce a remarkable photograph.

Basic English Suggested As A Simplified Language For General Use The World Over

Raising More Sheep

Marked Increase in Number On Alberta Farms
Striking evidence of the decided swing to mixed farming is the marked increase in the number of sheep on central and northern Alberta farms. Small farm flocks continue to climb and, according to authorities, there is a wide market for Alberta wool in England and elsewhere. The price of wool has increased more than 100 per cent. over last year.

In the 1931 census, 72,159 farms in Alberta reported the possession of sheep, compared to 59,566 farms in 1926.

The sheep population of the province grew from 310,000 in 1927 to 833,700 in 1932. The value of sheep per head in 1932 dropped to its lowest level in more than 30 years.

F. Andrews, assistant deputy Minister of Agriculture, is the authority for the statement that there is a definite place for the small farm flock on northern and central Alberta farms, each flock tending to make the farm more of a self-contained unit.

Mr. Andrews commented on the steady increase of farm flocks in the province, and the increase in the production of the northward drift of farm population. Not many years ago, a flock was something of a rarity in the southern part of the province.

Printing Crime News

Publicity Is Punishment Which Many Law Breakers Fear
Dr. S. Parker Coleman, noted lecturer and preacher, presented an interesting thought upon the publication of crime news in a recent speech. He said: "It is not the publicity which should distress us, but the deeds that cover concealment. If their wickedness were done in secret, how they would flourish. Rogues could strut around as unashamed and thieves and assassins consult their act with far less fear of detection." Every newspaper can produce evidence of the value of publicity as a deterrent to crime by the number of requests which are made from time to time to keep names out of the paper in connection with police court news, showing that publicity is a punishment which is feared.—Chatham News.

Advice For Dentists

Keep Patient's Mind Occupied Is Secret Of Painless Work
Dental "small talk," that constant line of chatter with which the practitioners endeavor to keep the patient's mind off the buzz of drills and the yank of forceps, now is glorified under the name of applied psychology.

Delegates to the annual convention of the Western Pennsylvania Odontological Society extracted that bit of wisdom from an address by Dr. G. Whitner, of the University of Pittsburgh.

"A great many people go to a dentist believing they are in acute pain. They really are not—but there's no reason to tell them so. Just treat them as if they were in pain for a while and then, when you say, 'Now, that doesn't hurt a bit, does it?' they'll think they feel fine."

England Getting Fresh Chickens From Canada

Former Shipments Were All Confined To Cold Storage Supplies
Fresh Canadian chickens are now being shipped to Britain for the first time.

The shipments are made possible by recent tariff changes in Great Britain which admit empire poultry duty free, while foreign poultry must pay three pence per pound duty, which is much higher than the former rate of 10 per cent. ad valorem.

Formerly, Canadian shipments of poultry largely were confined to cold storage supplies. The four leading suppliers of poultry for the British market were Hungary, Irish Free State, Serbia and France, while Canada came sixth.

Early Settlers

Asiatic Peoples Were Crossing the Bering Straits into Alaska and down to British Columbia and western Canada as late as 1200 A.D., Dr. Marcus Barber told the Royal Canadian Institute, recently, in the course of an address on the "Early Peopling of Canada."

"Basic English," a simplification of the English tongue intended to provide a workable solution to the language communications problems of the world, has been launched by the Orthological Institute of Cambridge, England.

Failure of many attempts to provide an "invented" language that could be understood throughout the world as a means of communication between the people of all nations who speak 1,500 living languages led to the effort to adapt the English tongue for the purpose.

The new form of English, introduced to Canada at the Institute of Pacific Relations Conference at Banff, in August, contains only 850 words, 800 of them nouns, 150 adjectives, 16 verbs or names of operators and the rest adverbs, prepositions or names of directions.

These, in addition to numbers, weights and measures, the calendar and such words as club, radio and telephone, already internationally known, do the basic work of ordinary English at a level of international communication.

It was chosen for the new medium because it is the natural or administrative language of 500,000,000 people. Another language is susceptible to the same kind of simplification. With no inflections and analytic in structure it is not only clear to the language habits of most Orientals but, for the same reason, is easier to learn.

The interest of which persons in all parts of the earth have turned this form of English (in which this paragraph is written) gives its backers cause to believe that it may be to a great number of uses. Letters have come into the Orthological Institute from all over the world, and in all parts of Europe, the Far East and the United States. Schools in the states on the American Pacific Coast are interested in it as a way of helping the young Chinese and Japanese to a good knowledge of English. In China, where English is the second language, there is much interest in it, and Japanese teachers are about to put it in their schools.

Widely differentiated uses of a word are eliminated in the new medium, such as "for" in the sense of "because," "that" in the sense of a relative pronoun, or "but" as part of a horse's harness. It makes use of the same words in the same way, analyzed into one of a few fundamental operations in combination with a directive. The simplest combinations of the words are used for the most common verbs, such as "put" for "insert," "go up" for "climb," "take out" for "remove," "go against" for "law" for "break a law."

In the same way, by descriptive analysis, many names of things are reduced to the same basic word, "analyst" becomes "a newspaperman," and a "desk" a "writing table."

Hurricanes Observe At Height Of Sixty Miles

Terrific Storms Observed At Height Of Sixty Miles
That terrific storms rage sixty miles above the earth is the report of Dr. Charles P. Oliver, of the University of Pennsylvania. Some of these hurricanes, travelling at 150 miles an hour, blow at an angle of 50 degrees at a speed great enough to draw a balloon upward at twice express train speed. Three high-speed winds were observed and measured with the aid of meteor "trains" according to Dr. Oliver. They were caught while fourteen stations between New York and Fredericksburg, Virginia, were charting the flight of the Leventis meteor.

One of these trains was watched for several minutes while it floated between fifty and sixty miles up. Several stations empire poultry duty free, while foreign poultry must pay three pence per pound duty, which is much higher than the former rate of 10 per cent. ad valorem.

Formerly, Canadian shipments of poultry largely were confined to cold storage supplies. The four leading suppliers of poultry for the British market were Hungary, Irish Free State, Serbia and France, while Canada came sixth.

Asiatic peoples were crossing the Bering Straits into Alaska and down to British Columbia and western Canada as late as 1200 A.D., Dr. Marcus Barber told the Royal Canadian Institute, recently, in the course of an address on the "Early Peopling of Canada."

WORLD HAPPENINGS
BRIEFLY TOLD

Temperance will be included in the study course of 500,000 Minnesota public school pupils beginning next September.

The "Friendship" peace pact between Yugoslavia and Turkey were signed recently by emissaries of both countries.

Upward of \$100,000,000 has been loaned farmers by the United States farm credit administration since March to help alleviate mortgage troubles of agriculturists.

"There can be no question of an all-Irish parliament," declared Vincent Craigavon, premier of Ulster since the Irish partition, in a statement two days before polling in the northern Ireland general election.

Hon. C. H. O'Han, secretary of state in the Dominion cabinet, recently left Montreal for Boston, where he will board the "Lady Hawkins" for a holiday cruise through the West Indies and to British Guiana.

After entertaining thousands of Century of Progress visitors with poisonous moccasins, Hattie McDaniel returned to her native Tulsa, Africa, only to be fatally bitten by one of the reptiles.

The American Library Association, which includes members in Canada as well as in the United States, has selected Montreal for the 50th annual convention, it is announced. The convention will be held in June, 1934.

The tariff board has ruled that "roasting peanuts in a manufacturing process and therefore subject to sales tax. The board turned down an appeal made recently by the Canadian Fruit and Vegetable Association for a contrary ruling.

Dr. Alan Blair, Canadian member of the medical faculty at University of Alabama, who recently allowed a "black widow" spider to bite him in the interest of science, has been recovered and plans to continue his experiments.

Canadian oats possessed special keeping qualities and were therefore purchased by the war office for the reserve supply depot. Captain A. Duff-Coeper, financial secretary to the war office, explained in answer to a question in the British House of Commons.

Wins Poultry Prizes

Dick Irvin, Famous Hockey Player Is Poultry Fancier

Dick Irvin, coach of the Toronto Maple Leafs hockey team, knows how to turn out smart poultry as well as smart hockey players. He showed the best Wyandotte cockerel at the Royal Winter Fair and captured sixth and seventh prizes with a hen and a pullet.

This is the second time the well-known sportsman has won poultry honors for chickens at the Royal. He showed for the first time last year, and at that time won third and fourth prizes in Wyandottes. Mr. Irvin hails from Regina, and his win makes the first time this prize has been taken by the west.

There are others in the sports world who chase puffers in the winter and raise chickens in the summer and horses in the summer. It was learned, Buzz Boll, of the Maple Leafs, Mr. Eddie Shore, has a ranch at Regina. The famous Boston Bruin hold-out, Irvin Shure, and the Cook Brothers of the New York Rangers are neighbors, as distances go in the west, of the Irvin ranch.

Mr. Irvin has been raising chickens for 22 years—ever since he demonstrated a preference for Regina over his native city, Hamilton.

He also raises racing pigeons and Great Danes.

"I'm coming back to get the Leghorn prize next year," he said.

A Hungry Population

The following is an estimate of what the London Zoo needs for food for the animals: Apples, 3 tons; grapes, 2 tons; currants, 10 cwt.; suitcases, 32 doz. oranges, 14,000; meat, many tons; egg yolk, 140 lbs.; eggs, 20,000; syrup, 201 lbs.; condensed milk, 15,000 lbs.; and 450 gal. lard, 15 cwt.; 15 cwt.; 15,000 lbs.; biscuits, 15 tons; honey, 51 lbs.; bread, 6 tons; vegetables, 30 tons; fish, 15 tons.

A New Antiseptic

A new antiseptic with extraordinary powerful germicidal properties has been announced by Western Reserve University at Cleveland, Ohio. The substance was described as 1,302 times as powerful as carbolic acid in killing pathogenic bacteria, yet is non-poisonous, non-destructive to tissues of the body, colorless in solution, odorless, tasteless and non-corrosive to surgical instruments.

Prison Has Model Dairy

Surroundings of Reformatory At Bakersfield, California, Are Attractive

Being a gray-cheeked milkmaid in an Alhambra Eden is no great attraction for any woman, ancient or modern, according to the theory of Sheriff C. H. Walker, of Kern County, California, himself a typical western sheriff and a first-class cowhand.

"They will get tired of it," commented Sheriff Walker, on a visit to the new State Prison for Women, which includes a model dairy. The sheriff's comment was prompted by the arrival of thirty additional women prisoners from San Quentin. The first contingent of 28 women arrived at the new institution last month. The prison will soon provide sanctuary for 145 women prisoners.

The model reformatory is in a secluded valley fifty miles east of Bakersfield in the mountains.

Each inmate has an attractive room, and each dormitory has a separate kitchen and dining room.

The group of buildings was erected at a cost of \$500,000 on a 1,500-acre farm which the women will operate.

Motors Meet Crocodile

Contended Right-Of-Way On Kenya Colony Bridge

A huge bridge which spans the head waters of the Nile at Jinja, Kenya Colony, carrying rail and road traffic, is also appreciated by wild animals. Two motorists were startled when their lights picked out in the middle of the road over the bridge the huge form of a crocodile, which snuffed its jaws threateningly, and managed to move. The motorists were compelled to alight it.

Winnipeg Newspaper Union

By Ruth Rogers

LOVELY AND SMART AS PAINT IS TODAY'S APRON WITH ITS MOONSH SHOULDER LINE

It is designed to give the figure a slim line. The neckline is extremely neat and trim.

It is so simple and comfy to slip into when one finds it necessary to go into the kitchen with her "best-dressed" dress.

You can bind all the edges with a contrasting color if you prefer. The buttons may match the binding.

Figure: slimly, fitted, circular, gingham and many rayon novelties are suitable for this model.

Style No. 823 is designed in sizes of 32 to 40 inches bust.

The medium size requires 1 1/2 yards of dress material with 2 1/2 yards of binding.

Price of pattern 20 cents in stamps (not cash) is preferred. Wrap coin carefully.

Recipes For This Week

(By Betty Barclay)

WASHINGTON PRUNE PARFAIT

5 cups cooked prunes,
1/4 cup sweetened condensed milk,
1/2 pint whipping cream,
2 oranges.

Remove pits from prunes and cut into small pieces. Peel oranges, remove all white membrane, and cut oranges into small pieces. Cut eight cherries into small pieces, saving four to decorate ice cream. Whip cream.

Combine prunes, oranges, cherries, and condensed milk, mix thoroughly, add whipped cream and mix again.

Put in refrigerator pan, decorate top with remaining sliced cherries, place in freezing unit and freeze three or four hours.

QUICK CABBAGE

1 1/2 quarts shredded cabbage,
3 cups milk,
1 cup cream or rich milk,
2 tablespoons butter,
2 tablespoons flour,
2 teaspoons sugar,
Salt and pepper.

Cook the cabbage for two minutes in the thick cups of hot milk. Drain the cup of cream or rich milk, the blended butter and flour, sugar, salt and pepper. Cook rapidly for three or four minutes. The result is a crisp vegetable, delicate in flavor and color.

To Protect The Foolish

New York Bans Sale Or Use Of Eyebrow And Eyelash Brushes

The sale or use of eyebrow and eyelash dyes containing harmful ingredients was banned in New York recently, as health authorities sought to curb the spread of eye maladies in the city.

Health Commissioner S. W. Wynn announced that the Board of Health had amended section 128 of the sanitary code to prohibit the manufacture, sale or use of dyes containing high percentages of aniline derivatives or silver nitrate.

Seemed Unreasonable

"What made your sister so mad?" questioned Jimmie.

"Ah, she don't know what she wants," returned Robbie in disgust.

"She sent me to the drug store to get some cold cream. I got ice cream, because that's the coldest kind they had, and now she's more about it."

NOTED ARTISTS RESUME BROADCASTING

Old Scotchman Succeeds In Reaching Summit Of Ben Nevis

Unusual record was set by E. Provost James Fisher, of Hothway, Scotland, who is just seventy-eight. He claims to be the oldest man in Great Britain to climb Ben Nevis. It was four hours in making the ascent, and was unaccompanied, although he met visitors at the top, one of whom signed his card. He did not, he states, feel fatigued, but only a little thirsty.

Widower (Introducing middle-aged and wealthy fiancée)—Come here, children, and give this lady a kiss.

This is the new mother I promised you.

Tommy—But, daddy, she isn't new.

Italy's New Postage Stamp

Series To Celebrate Tenth Anniversary Of Fascist Government

To celebrate the tenth anniversary of the Fascist Government of Italy, Signor Mussolini has issued a series of new postage stamps, among them a design which has caused much comment and opposition from the Vatican.

The brown oblong 30 Centesimi stamp sets forth in the center the open Bible standing on a pedestal, which rests on the wings of an eagle, symbol of inspiration. On the open page of the Book is inscribed the word "Evangelium." On the lower part of the stamp is the word "Credere."—Believe. In the rear of the open Bible is the Cross, and the crucifix. On the left, before the Bible and the Cross, are the flags of Italy and the emblems of the Fascist regime, lowered in salute.

Narrowly Escaped Tax

Pitt Once Had Idea To Make Umbrellas Add To Revenue

Umbrellas have the distinction of being one of the few articles in common use which have never been taxed, but once at least they had a narrow escape from taxation.

When Pitt was looking round for additional sources of revenue to finance the war with France he wrote to a friend in Somersetshire inviting suggestions. Back came the reply: "Tax umbrellas, and make all the bishops carry the cross."

He decided that the bishops' suggestion was not adopted.

SUNDAY SCHOOL LESSON
DECEMBER 10

PAUL IN CAESAREA

Golden Text: "Herein I also exercise myself to have a conscientiousness of the law of God and men alike."—Acts 24:16.

Lesson: Acts, Chapters 21, 26. Devotional Reading: Psalm 21-24.

Explanations and Comments

Accused By Tertullus, 24:10-13.—Lyones, the Chief Captain, had charged Paul's accusers to appear against him before Felix. Within five days the high priest Annas with a deputation from the Sanhedrin arrived in Caesarea. Paul was summoned for trial. Tertullus, the advocate whom the Jews had engaged, presented their case against him. After fulsome words of flattery for Felix, even expressing gratitude for his reforms, Tertullus accused "this pestiferous fellow" of three things: inciting dissension amongst the Jews throughout the Roman Empire—an offense against the Roman law; being the leader of the sect of the Nazarenes; and denying the temple—an offense against both the law of Moses and the Roman law, since the latter protected the Jews and their worship. When Tertullus concluded his speech, the deputation of Jews emphatically endorsed all he had said.

Paul's Defense, 24:10-21.—When the Chief Captain gave signifying that Paul should make his defense, Paul calmly replied: "I am a Jew, a Pharisee, a student of the law, saying that he spoke with great confidence because Felix had judged his nation for some time and was acquainted with the state of affairs."

Paul then began his defense by saying that he had been brought before Felix as a defendant in a charge, saying that he spoke with great confidence because Felix had judged his nation for some time and was acquainted with the state of affairs.

Paul then began his defense by saying that he had been brought before Felix as a defendant in a charge, saying that he spoke with great confidence because Felix had judged his nation for some time and was acquainted with the state of affairs.

A Partner
For Discussion

Nations Cannot Dictate To Germany

Says Sir John Simon

Sir John Simon, secretary for foreign affairs, told the House of Commons that Britain is resolved to do everything possible to make Germany, which withdrew from the Disarmament conference at Geneva last month, a partner again in arms discussions.

Sir John said there could have been no procedure more calculated to "drive the iron into Germany's soul" than to have told her that withdrawal from the conference made no difference—that the convention would be completed and then she be asked to sign on the dotted lines.

"Germany," said Sir John, "is not a partner for dictation; she is a partner for discussion."

He said the government already has taken steps to play its full part in keeping the conference on its feet, and to promote diplomatic consultations.

The foreign secretary told the legislators:

"We have already made it plain to the French Government—unhappily that government fell last night, but in keeping the conference on its feet, French policy will change—that if the saw her way to enter into closer communication with Berlin, they would have our complete good will in doing so."

The British Government, Sir John said, had communicated to Chancellor Hitler of Germany "that the whole of our influence would be based for us in keeping the conference on its feet, and to promote diplomatic consultations."

"We also," said Sir John, "have communicated to Italy how well satisfied we were to learn she agrees with us in keeping the conference on its feet, and how satisfied we were that the present procedure, which Italy has in fact followed, is on us, was the correct procedure."

Lawrence Tibbett and Richard Crooks

Network

On Monday evening, December 10, another series of outstanding radio concerts was inaugurated by the Lawrence Tibbett and Richard Crooks.

The many radio listeners who appreciate the best in music and who enjoyed the Firestone concerts in the past, are pleased to know that Lawrence Tibbett, leading baritone of the Metropolitan Opera Company, and Richard Crooks, noted tenor, have been re-engaged and will be heard alternately every Monday evening throughout the winter months. As in the past, the series will be broadcast over the radio.

The "Voice of Firestone" will be accompanied by the Firestone Orchestra under the baton of William Merrigan Day, brilliant young conductor and protégé of Walter Lamoreaux.

In response to numerous requests, Harvey B. Firestone, Jr., will resume a series of short dramatic and educational talks every Monday evening, commencing two years ago.

The "Voice of Firestone" will be broadcast over a coast-to-coast N.B.C. network, 10:00 P.M. to 11:00 P.M., Toronto, at 8:30 p.m., Eastern Standard Time and again at 8:30 p.m. Pacific Coast Time in the Western Provinces.

Souvenir Of The War

Only Thing One Englishman Had Was

Leave Certificate

As the result of a chance encounter in Charing Cross post office a week or two ago, I dined the other night with an old comrade of the war.

This gentleman, though he served as a private in the ranks of the same battalion as myself, was then, as he still is, a man of considerable wealth. He has a fine house in Mayfair, a very pleasant country place too, several cars, and a big staff of domestic servants, including a smart ex-servicé chauffeur. We had not met since going over the top together in 1918, on an occasion that landed both of us on a stretcher. After dinner the talk was naturally of old army days.

I asked my friend whether he had many souvenirs, in addition to some letters and a few mementoes of the Great Adventure. "Only that," he said, pointing with his cigar at a small framed document on his smoke-rimmed wall. It was a leave certificate, dated, signed by an army M.O., vouching that my host was "free from venereal infection."

"London Correspondent Ottawa Journal."

A Real Bargain

Sandy Macpherson and Maggie, his wife, stopped in front of a restaurant window in which was hung a card bearing the words: "Lunchroom From 12 to 2 P.M. Is 6d."

"Well have our lunch here, Maggie," said Sandy. "Two hours' steady eating for a shilling and six pence is no bad deal."

Production in Poland is now above the high of 1932.

Refusing The Missing

A little boy, surprised by secrets by among to be scared into being good.

"It's no good telling me the angels will write down in their books if I'm naughty," he said. "I might as well tell you they think up in heaven that I'm bad."

"But why should they think that?" "Because I haven't said any prayers for two weeks."

Mrs. T. G. Johnson and daughter Betty, left on Tuesday to spend the winter with relatives in Vancouver. Mr. Johnson took them to Calgary on Tuesday evening, from which point they embarked for the coast.

A dinner party was held at the home of Mr. and Mrs. R.J. Martin on Friday evening, December 8th, and a number of friends spent an enjoyable time.

Subscriptions in many cases are due to this newspaper, and as Christmas is drawing near the editor may be induced to take in a couple of Turkeys on Subscription accounts. See us immediately if you have turkeys to dispose of in this manner.

Born on Tuesday, December 13th, to Mr. and Mrs. Lee Saunders, a daughter.

Only 8 more shopping days until Christmas. Read over the advertisements in this issue and "shop where you are invited to shop." In other words, patronize our advertisers and help in Carbon this year.

Janet Gaynor and Henry Garat in "Adorable" will be the feature at the Carbon Theatre next Monday.

Public "Pop" Bell returns to Carbon with the Olive West Players on Wednesday, December 27th, with a new Christmas show and dance, in the Farmers Exchange hall. See advertisement in this issue for further particulars.

CARBON'S BIG CHRISTMAS SHOW

— AND DANCE —

By the Olive West Players

SATURDAY, DECEMBER 23, 1933

"Pop" says: "come and laugh and have a good time!"

Also dance with Alberta's Best Four-Piece Band at no Extra Charge.

ADMISSION: the 1st and 2nd: Ten Cents (No Extra Charge For Dance)

"Doesn't it provoke you when a girl is slow about getting ready to go to dinner with you?"

"Yes, the longer she takes, the funnier she gets."

Down—Where nowadays will you find the youth who can smile when everything around him is going dead wrong?

Double—On the links tomorrow morning, carrying my clubs."

Here and There

The Royal Great Western British Flyer, will soon again be in northern prior to dismantling sections from that city to Great Britain. This great train has been travelling through the West of Canada subsequent to being one of the major exhibits at the Chicago World Fair.

The vehicle of the future will be an automobile that can also take off into the air, or an airplane that can land and travel along the highway, a speaker addressing the Society of Automobile Engineers in his audience at the Royal York, Toronto, recently.

Canadian scenery dwarfs that of Scotland, a lake in the Gatineau Valley was more magnificent than Loch Lomond while Lake Louise in the Rockies was to him almost a celestial vision, according to Lord Macaulay, chairman of the Royal Commission on Fisheries expressed just prior to sailing on the Empress of Britain for England.

Informal discussion on closer working relations between the Canadian railways and aviation companies of the boundaries are in progress. With Canada lying on the most direct route between Europe and the Orient, this country is in a unique position to take care of a large proportion of the traffic now moving between Europe and the East.

Constituting what is regarded as the finest collection of mounted square-tailed speckled trout ever assembled from the same locality in a single season, seventeen fine specimens of this variety and one rainbow trout were entered in the Niagara River Game Guild mounted trout contest recently judged and prizes awarded by the Tourist Department of the Canadian Pacific Railway.

Mr. and Mrs. J.H. Oliphant motored to Calgary on Thursday last and returned on Friday.

The curling and skating rinks in Carbon are now open and attracting quite a few enthusiasts in both lines of sport.

A bus load of Calgary Masons attended a special gathering at the Carbon Masonic hall on Tuesday night.

Remember the meeting of all ladies interested in curling, to be held in the Municipal office on Friday, December 15th, at 8 p.m.

On Saturday, December 16th, the Builders Hardware will distribute free treats of Candy and nuts to every child visiting the store during the day. Parents are reminded that their children can get this free treat any time of the day on Saturday.
